

Form A: Cooled Shipped Semen Penn State University Horse Barn

Mare Bred via Shipped Semen~

1. **First date expected semen to ship:** _____.
2. **First semen shipment:** If mare is bred via shipped semen, the booking fee and the balance of the breeding fee must be paid in full prior to shipment of semen. The farm agrees that the mare owner may pick up at the farm or the farm will send the first shipment of semen via Fed-Ex or similar next day delivery free of charge to Mare Owner. Futurity breedings are not included in this and will be billed as stated in paragraph three below. If Counter to Counter Shipment is required there will be an additional charge of \$_____. This will be determined by where you live and what method of delivery is needed. Depending on the situation we may not be able to offer this service to everyone.
3. **Subsequent semen shipments:** Will be via Standard Fed-Ex/UPS overnight delivery. The collection/shipment charge is \$250.00 (\$175 if customer pickup at farm). If Counter to Counter Shipment is required there will be an additional charge of \$_____. Resulting in a total charge of \$_____.
4. **Shipping containers:** Farm shall ship semen collected from stallion in an appropriate chilled semen container by an overnight courier, such as Federal Express, Airborne, UPS, etc. on the day when the semen is collected. This semen will be delivered to the address provided by the Mare Owner on the last page of Form A Cooled Shipped Semen. Mare owners may forward their own shipping container (**BOLDLY** marked with your name and address on all the parts). We ship using both reusable Equitainers and disposable cardboard shipping containers. You may state a preference. Please mark what type of shipping container you would prefer or if you don't have a preference just mark none (_____). We will do our best but, due to limited availability we may not be able to honor your request. Equitainers must be returned to the Farm, prepaid at Mare Owners expense within 3 working days from original shipment or a \$25/Day Rental Charge will be assessed. Equitainers not returned within 2 weeks will be billed to the mare owner at the price of \$300. Cardboard shipping containers cost \$_____. If semen is needed the same day, it will be sent via airline, if available, and the Mare Owner will be responsible for all additional fees incurred in counter to counter (CTC) shipment of the semen.
5. **Semen shipment warranties and disclaimers:** Best efforts will be made to provide shipped cooled semen on an as required basis according to Farm's Collection/Shipment days. However, a contract for cooled semen does not guarantee that semen will be available on the day you submit your request. Cooled semen bookings will be, by necessity, of limited availability if the stallion's book fills. Stallion Owner/Farm further certifies that the semen, when collected, will be of such a degree of motility to be acceptable for breeding. We will make every attempt to get cooled semen to your mare in good condition; however, we make no guarantees or warranties that the semen will be in good condition upon arrival.
6. **Mare owner responsibilities:** The Mare Owner certifies that the Farm is obligated to transport cooled semen to the address of record, which has been provided in writing on Form A, "Cooled Shipped Semen", by the Mare Owner prior to any shipment. If the Mare Owner requests more than one shipment, the semen will be shipped to the last known address of record provided by the Mare Owner to the Farm unless otherwise specified in writing and confirmed by the Farm.
7. **SEMEN ORDERING PROCEDURE: All requests for semen must be made by 5 PM EST the day prior to Collection/Shipping date.** Semen requests are filled in the order in which they are received. However, mare owners ordering semen for the first time in a particular cycle will be given preference over mare owners ordering a second or third shipment for a particular cycle. Shipped semen may only be requested to ship on regularly scheduled breeding days. **Monday, Wednesday, Friday and Saturday** are Collection/Shipping/Breeding days. **Sorry. No Exceptions Are Available!** Monday, Wednesday, and Friday orders can be shipped overnight, picked up at the farm, or counter to counter. **Saturday orders can only be picked up at the farm or sent counter to counter.** Mare Owner may be responsible for shipping charges for cancellations received after 9 AM EST on shipping days if semen has already been processed.

8. **Breed association requirements:** The Mare Owner agrees to comply with all AQHA, or other breed association requirements concerning the use and handling of Transported Cooled Semen. The parties further agree to strictly abide by Rule 209 as contained in the AQHA Official Handbook or as modified and amended from time to time by the AQHA. Stallion Owner and Mare Owner to execute a “Transported Semen Breeders Certificate” shall comply with any parentage verification as required by the American Quarter Horse Association or other breed associations. Fees for parent verification are the Mare Owner’s expense.

Please Contact Us Directly for Ordering Semen:

Semen may be ordered by phone or E-mail. **You must order by 5 PM EST the day before the collection day. Collection days are Monday, Wednesday, Friday, and Saturday.** Monday, Wednesday, and Friday orders can be shipped overnight, picked up at the farm, or counter to counter. **Saturday orders can only be picked up at the farm or sent counter to counter.** Orders will be processed in the order they are received. If you need to cancel an order it must be cancelled by 9 AM EST or the mare owner may be liable for shipping charges if we have already processed the order when you call in a cancellation.
