Willow Behrer Farms LLC is currently looking for an individual to the position of assistant crop manager. This is some information below about us and a description of the job.

Willow Behrer Farms LLC is a business which has been in operation for over 100 years, located in central Pennsylvania. We are presently milking 800 cows and continue growing. There are 14 full - time employees and several part - time workers in addition to a field crew in the summer for farming 1500 acres of land. We grow corn, alfalfa hay, soybeans, and some small grains.

We are looking for a person to work with the field crew to organize the cropping activities of the dairy operation that will allow a high performing clean environment for both employees and milk production.

Please refer to the job description to see the primary and secondary responsibilities. Experience in equipment operation and employee management is a plus and we will train in techniques. Person must have the ability to work as part of a team to develop a high producing dairy herd and cropping operation. Prompt, calm, friendly team worked needed.

We are located near State College, Pa. and the Penn State University. Great hunting in the surrounding woods and some of the best trout fishing in the Northeast is in the Spruce Creek River.
