Pennsylvania 4-H OBSTACLE TRAIL SCORE SHEET

Judge	Date	

Give each element of the trail course a score between 1-10. A higher score should be given if the rider is trying to maneuver the horse on their own. If a large amount of assistance is needed a lower score should be given. The judge should also take note if the rider is attempting to maneuver the horse correctly but physically might not be able to do so but is still aware of the course. (verbally expressing what he/she should be doing).
