Pennsylvania 4-H HUNTER HACK SCORE SHEET

Judge	Date	

The hunter hack horse or pony is expected to move in the same style as a hunter under saddle horse or pony.

The majority of the emphasis in the judging is placed on the horse or pony's flat work and then the style and the safety with which they jump. Faults over fences are judged as in the Working Hunter classes.

A horse will not be permitted to advance to the next qualifying show if it does not fulfill the jumping requirements.

One courtesy circle prior to the first fence is permitted. Additional circles are considered a major fault.
